 VADEMECUM SCUOLA

È possibile avere una copia della diffida al dirigente scolastico? Ho visto che sulla lista delle scuole diffidate è presente la scuola di mio figlio.

Non mi era molto chiaro se il paese che dovevo inserire fosse nostro o della scuola?

Mi sono trovato giusto settimana scorsa in una situazione di grande disagio nella scuola di mio figlio e vorrei capire insieme a voi se e come gestirla al meglio. Vi chiedo quindi se possibile parlarne telefonicamente in modo prettamente informativo. Vi chiedo cortesemente se possibile, prima d'esser contattato, di scrivermi da che numero mi chiamereste in quanto se nonno il numero in rubrica evito di rispondere in quanto spesso si tratta solo di spam e vendite di servizi a cui non sono interessato.

In forma anonima, I nostri figli in caso di sintomi influenzali sono tutelati lo stesso anche se non c'è una diffida nominativa a loro carico?

FRI members can contact healthcare providers who are authorized to perform covid antigen testing and issue - through an authorized partner - the corresponding "green pass".

The service is provided directly by the health care providers under their full responsibility; FRI manages only the coordination service through the electronic platform and the barter service.

Here, 130 FRI Civic Barter (FBC) services can be purchased in order to barter 10 covid test services with healthcare providers. The antigenic tests will first be shipped to the member's address.

The purchase of FBC services can be made by bank transfer or by credit card ("stripe" service). Once you have purchased and received your FBCs within the FRI App, you will be able to search [here](#) for available healthcare providers for an appointment.

Once the appointment is arranged, the member will transfer via the FRI App (watch the video [tutorial](#)) 13 FBCs to the operator who will perform the covid test and issue - in case of a negative test result - the "green pass".

Lo scorso agosto, un'altra inchiesta del *Daily Mail* aveva portato allo scoperto una rete di 200 ex militari, ossessionati dalle armi e dalle teorie del complotto sui vaccini, i *Veterans for Freedom*, che discutevano di attaccare centri di vaccinazione e personale sanitario, di bloccare i supermercati che richiedono il certificato di vaccinazione e di inviare "forze di reazione rapida" nelle scuole in caso di vaccinazione dei bambini.

#### CURE

La Covid-19 si può curare? La scienza medica dice chiaramente sì, anzi esistono oramai molte terapie per un'infezione non più pericolosa di una seria influenza. Lo sapevi che il presidente del Brasile si è curato con l'idrossiclorochina, che costa pochi euro e che Donald Trump (74 anni) è guarito in soli 4 giorni?

#### VACCINI

Il vaccino serve e non ci si potrà poi più infettare con il Sars-Cov2? Inoltre, è un prodotto sicuro oppure ha seri rischi? Lo sapevi che non si tratta di un tradizionale vaccino, bensì di un farmaco genico e che l'industria farmaceutica ha chiesto (ed ottenuto) la non punibilità per i danni da "vaccino" che stanno ora esplodendo? Informati e decidi tu cosa preferisci fare.
